

CHRISTIAN COLLEGE PREPARATORY WORKSHOP (CCPW)

for First Year Students

Organised by Dept. of Physics, Chemistry, Mathematics, Commerce,
Botany, Zoology, Economics, History & English

The programme aims at providing first year students with basic study skills that will help them to cope with the challenges of First Degree Programme by giving them a firm grounding in the fundamental proficiencies required for University level learning. The workshop will have input sessions in 1) English Language 2) Numerical Ability 3) Logic & Reasoning and 4) General Awareness. This workshop will provide a firm foundation in study skills, which will help students to follow classes better while also improving their overall performance. The programme will have a cascading effect on students' general performance in the subsequent years of their career development. The sessions will be taken by a team of Faculty members of Christian College fraternity.

Salient features of the workshop :

- ◆ Introduction to fundamentals of various skills/competencies
- ◆ Developing English Speaking ability
- ◆ Activity oriented models
- ◆ Interactive learning sessions

English Language

Numerical Ability

Logic & Reasoning

General Awareness

Social Internship

The mission of the Social Internship is to mentor the youth of the college by educating and empowering them to become more active in the community. The programme is designed to develop stronger relationships between our students and the society in order to foster better understanding and address challenges and solutions.

Academic Internship

Academic Internship aims to provide students with a chance to gain valuable work experience by working as an intern at various firms in the corporate sector.

Movers & Shakers

The Movers & Shakers programme brings various achievers from different walks of life so that they can share their success stories and give students a chance to draw inspiration from their lives.

Psychometric Analysis

Psychometric Analysis attempts to analyse the strengths and weaknesses of students by measuring the students' cognitive ability and personality/behavioral style.
